

## Review for Tracery Professional Builders, Inc.

Kris Geering

I want to give ALL the stars! We had a challenging project in our bathroom--we wanted to have a shower as part of our whirlpool tub. The problem was it was an irregular shape, and we \*really\* didn't want to rip out the whole wall to make things happen. Mark and his team stepped in and BAM! They not only came up with ideas to make it work, their ideas did not destroy our bathroom or our budget AND every time I shower in the morning it's like being at the spa.

I almost don't want to give such a glowing review, because we want to hire him again for our kitchen remodel!
