

Review for Tracery Professional Builders, Inc.

M. Designs Architects

PRO

We've worked with Mark Macdonald in several different arenas over the past 15-plus years – initially as a consulting structural engineer and as Principal of Tracery Professional Builders, General Contractors. Mark has, in each of his roles, provided excellent service, thoughtful counsel, reasoned argument and discussion of alternatives. He and his people do fine work. We always feel confident about recommending Tracery Professional Builders.

Alpheus W. Jessup, II, Architect

Principal
