

Review for Tracery Professional Builders, Inc.

Allyson Spence

We used Tracery Builders for a home remodel, which involved half of our house and included our kitchen and a bathroom as well as an earthquake upgrade. Mark and Chris were wonderful to work with in terms of listening to what we wanted, they were always available to talk things through, they were timely in getting the project done, and helpful about staying in budget. Who finishes a big remodel and loves their contractor throughout the process? We did. And we will be happy to go back to Tracery for all future projects.
