

Review for Tracery Professional Builders, Inc.

Melissa

This review is long overdue! Mark and the Tracery team were great to work with on our remodel. We remodeled our kitchen, family room, powder bath, and living room. They were easy to work with, professional, cleaned up the work site every day, and were overall great people. Larry, Jose, Jesus, Edgar, and David (among others) became a part of our daily household for months, and were always very accommodating. Their work was impeccable, and they often gave us options to consider. Mark came by regularly to check on progress and help troubleshoot, provide recommendations, work with our designer, and provide a road map through to completion. We have received plenty of compliments from friends, family, and neighbors (who also enjoyed interacting with the crew). We are very happy with the project we did with Tracery and recommend them highly. Will definitely be back to Tracery for the next project.
